VANGUARD SERIES

Internal Halyard Ground Set Cone Tapered Aluminum Flagpoles

The Vanguard series of flagpoles combine the security of a concealed halyard system with the simplicity of a rope halyard. While lacking the convenience and sophistication of a winch operated system, the Vanguard provides an intelligent, economical alternative to deluxe concealed halyard systems. The Vanguard's wire center halyard runs through a stationary truck and is secured in a cam action cleat located inside the flagpole behind a lockable access door. All fittings for a complete installation are included: gold anodized aluminum ball ornament, swivel flag snaps with vinyl covers, retaining ring, counterweight, a stainless steel quick link to make all necessary connections, spun aluminum flash collar and galvanized steel foundation sleeve.
